

TO: The Windows Guys,

The windows were promised to be installed on the 27th of September, and not only were they on time, but they were done in three hours with all nine windows. The installers were very nice guys, and if anybody ever asks me or my wife where to get windows, we will tell them to buy from you guys. I love the way our windows look, and as soon as we get our money saved up, we are going to buy the other five windows. We never finance anything, we save up and buy. But I will definitely buy all of the rest of my products from you guys.

C. I
